

Formulary Data

Vericred's formulary dataset provides details on which drugs are covered by which plans and at what tier level, along with restrictions. It also enables features like shop-by-drug.

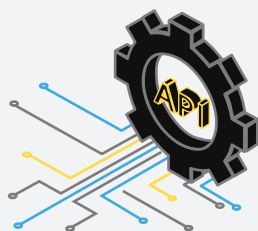

Use Cases

HEALTH INSURANCE QUOTING, SALES & ENROLLMENT	HEALTH INSURANCE UTILIZATION APPS	BENEFIT ADMINISTRATIONS APPS	PHARMACY APPS	PRESCRIPTION DRUG APPS
--	-----------------------------------	------------------------------	---------------	------------------------
